PROJECTS

- **Movie Recommender System**

Built and deployed a Streamlit app using TF-IDF and cosine similarity for personalized movie suggestions.

- **SMS Spam Detection**

Created an NLP model using TF-IDF and Naive Bayes to classify spam messages; deployed with Streamlit.

- **Spotify Clone**

Developed a functional music streaming web app with HTML, CSS, and JavaScript, featuring play/pause, song navigation, and dynamic playlist rendering.

- **Portfolio Risk Analysis Using Market Sentiment**

Developing a comprehensive dashboard to help investors make informed decisions by understanding the effect of market sentiment on asset volatility

- **Competitor Analysis to Benchmark Bank Performance | June 2024 - July 2024:**

Developing a comprehensive dashboard to evaluate bank's competitive performance relative to its peers.

EDUCATION

GLA University | 2024-2027

B.Tech (CS - Data Analytics)

CPI: 7.5

Experience

Web Development Intern

Fusebox.cloud, Noida

jan 2025 – Mar 2025

- Worked on a Room Management System web app as part of academic internship.
- Developed front-end components and assisted back-end integration for smooth UX.
